

Alcoflex 100 HG

DESCRIPTION

A high quality, non-potable ethanol, suitable for industrial cleaning where a waterless environment is desired. It is denatured with Isopropyl Alcohol rendering it ideal for printing, foundry and chemical formulators. **Alcoflex 100 HG** does not require an Australian Taxation Office (ATO) permit for purchase.

FEATURES

Ethanol denatured with Isopropyl Alcohol 5%.

A clear, colourless liquid miscible in water and hydrocarbon solvents.

Used in industrial cleaning formulations, coatings reducer formulations and formulations denatured with a similar alcohol (no hydrocarbons).

Very low water content (0.42% max).

Has lower odour than conventionally denatured ethanols.

Versatility – **Alcoflex 100 Industrial HG** is readily available and inexpensive. It is often a suitable alternative to Isopropyl Alcohol where solubility is not critical or can be assisted by other formula components.

PACKAGING

Alcoflex 100 Industrial HG is available in IBCs (1500 litre bulk containers), drums and 20 litre containers.

SAFETY

Please consult the MSDS on **Alcoflex 100 Industrial HG** before use.

The information and recommendations contained herein are based on data believed to be correct at this time. However, no guarantee of any kind, expressed or implied is made with respect to the information contained herein.

Typical Characteristics

Specific Gravity.....	0.79
Flash Point.....	12°C
Boiling Point.....	78°C
Percentage Volatiles	100%
