

**KEROSENE**

# Kerosene – Clear

## DESCRIPTION

Mixed aromatic, paraffin, naphthenic hydrocarbon solvent which combines good solvency for solvent degreasing applications. **Kerosene – Clear** can be used whenever effective, low-cost cleaning is required.

## FEATURES

Flash point 38°C – dangerous goods regulated product.

Boiling range – slightly oily, slow “tail”.

Slow evaporation rate.

Good solvency for many organic compounds.

Minimum residue on drying.

Competitively priced.

**Versatility** – **Kerosene – Clear** can be included in any formulation where controlled evaporation is required and is miscible with all other organic solvents.

**Solvency** – **Kerosene – Clear** has good solvency for greases, oils and many other organic compounds

**User Friendly** – **Kerosene – Clear’s** lower aromatics content makes its use much more pleasant than solvents with high aromatics.

## PACKAGING

**Kerosene – Clear** is available in bulk, IBCs (1500 litre bulk containers), drums and 20 litre containers.

## SAFETY

Please consult the MSDS on **Kerosene – Clear** before use.

The information and recommendations contained herein are based on data believed to be correct at this time. However, no guarantee of any kind, expressed or implied is made with respect to the information contained herein.

### Typical Characteristics

Appearance .....	clear liquid
Specific Gravity.....	0.80
Flash Point.....	38°C
Boiling Range .....	145–260°C
Aromatic Content.....	<19%
Aniline Point.....	60–69°C
