

SOLVENTS / PENETRANTS – DEAROMATISED

Recosol 78

DESCRIPTION

A high flash point, de-aromatised hydrocarbon solvent that may be used as a low odour, non-regulated alternative to Mineral Turpentine, White Spirits or other hydrocarbon solvents in many formulations.

FEATURES

A high flash point solvent that is not classified as a dangerous goods for transport but is combustible for storage.

Low odour.

Can be used as a parts solvent cleaner.

Is commonly used as the solvent in emulsion polymers.

Versatility – **Recosol 78** can be substituted for many traditional solvents in cleaning formulations as well as sophisticated blends requiring a low aromatic content.

Solvency – **Recosol 78** has a high solvency of greases, oils and general dirt without the inherent capability to swell rubbers or plastics making it an appropriate electrical cleaner.

PACKAGING

Recosol 78 is available in IBCs (1500 litre bulk containers) and drums.

SAFETY

Please consult the MSDS on **Recosol 78** before use.

The information and recommendations contained herein are based on data believed to be correct at this time. However, no guarantee of any kind, expressed or implied is made with respect to the information contained herein.

Typical Characteristics

Specific Gravity.....	0.79
Flash Point.....	73°C
Boiling Range	198–250°C
Aromatic Content.....	<0.03%
KB Value	30
